Weeks spent on funding applications. And often, no reply.

Levier finds the Swiss foundations whose purpose truly fits your project, and writes each one a tailored letter. You save weeks, and your applications get read.

- ✓ Fixed fees, never a percentage
- ✓ You sign: the application stays yours
- ✓ Letters in English, French and German

63 h
of work on average behind a successful application

42 %
of rejections come with no explanation

2–4
decision meetings a year at most foundations

Sources: Grantee Review Report (CEPS, University of Basel, and SwissFoundations, 2019 data); practices published by foundations.

Does this sound familiar?

"We don't have time for applications."

Each application takes dozens of hours, often in the evening on volunteer time. Meanwhile, the project waits.

"We don't know which foundations to write to."

Switzerland has over 13,000 charitable foundations. Most will never fund your project, and that is written nowhere.

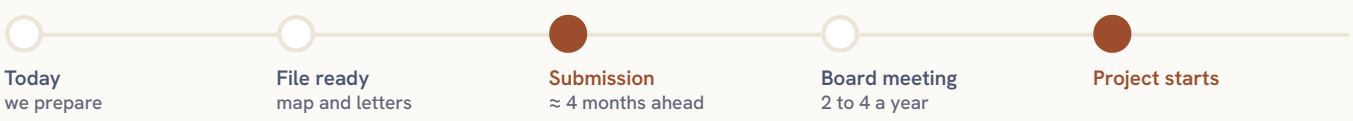

"Rejections come with no explanation."

Off-purpose, late, too generic: foundations set these aside. You start again without knowing why.

The problem is not your project. It is applications sent to the wrong foundations, with generic letters, too late.

One missed board meeting means six months of delay.

Most foundations decide two to four times a year and want your file about four months before the project starts. A project already under way is usually no longer funded.

How Levier takes care of it

Deliverables and dates fixed on day one.

15 minutes

A first conversation

You present the project and the missing amount. We tell you frankly whether foundations are likely to fund it.

2 weeks

Your funder map

20 to 30 foundations selected from over 14,000: for each, the sentence of its purpose that matches your project, its website, deadlines and required documents.

4 weeks

One letter per foundation

Written for what that foundation funds, in English, French or German. You read, sign and send.

6 months

The calendar, kept

On-time submissions, timely follow-ups, replies logged, a monthly report. After a grant, the reports owed to the foundation.

A clear offer, fixed fees

Diagnosis

CHF 750

To know whether and where to look.

- 5 verified priority foundations
- Loterie Romande benchmarks
- Submission calendar

Most chosen

Campaign

CHF 3,500

To fund a specific project.

- Map of 20 to 30 foundations
- 10 tailored letters
- Calendar and follow-ups over 6 months
- Monthly report

Retainer

CHF 650 / month

For organisations funding several projects.

- Ongoing campaigns
- Reports to foundations after a grant
- Watch for new foundations

Indicative prices, written quote before we start. Fixed fees based on the work: never a percentage.

Our guarantee

If we cannot find at least 15 foundations whose purpose fits your project, the Diagnosis is free. No one can guarantee a foundation's decision; we guarantee the work.

No commission. The application stays yours.

Foundations reject intermediaries paid on commission, and Swissfundraising's ethical principles rule it out. Levier works for fixed fees; your organisation signs and sends every application.

Who is behind Levier

Alexandre Cazes, former science adviser at Swiss public broadcaster RTS and graduate of the Geneva Graduate Institute (IHEID). To fund his own master's degree, he applied to over a hundred foundations across Switzerland. He knows what they read, and what they set aside.

CHF 100'000+
raised from foundations for two master's degrees

100+
foundations approached for his own funding
